Re: Expol fire performance

To whom it may concern:

This letter is to confirm that all Expol Products have been tested to AS/NZS1530.3:1999 and meet the flame propagation requirements set out in the manufacturing standard AS1366 part 3 1992. The new NZ buildings code only requires Foamed Plastics to achieve the AS1366 standards when used as part of a wall or ceiling system.

Signed

Mark Mischefski  
General Manager  
Expol Ltd
